

THE BIG MINAH DEAL.

Mr. Briscoe Receives the First of the Installment Payments for the Minah.

The New Company Takes Possession and to Begin Work on a Large Scale.

What the Minah has Produced—Other Deals on the Tapis—Foreign Capital in Montana.

Yesterday Mr. J. O. Briscoe received the news by telegraph from New York that \$100,000 had been wired there from London as the first payment on the Minah group of mines, the sale of which has been in negotiation for several months. The property now passes into the possession of the Minah Consolidated company, limited, of London, England. The purchase price agreed to be paid, as previously stated, is \$1,250,000. The new company has incorporated with a capital stock equivalent to the purchase price, divided into 250,000 shares of the par value of \$5 each. Stock to the value of \$100,000 has been placed in the treasury to be used solely for development work on the mine. The entire capital stock is subscribed for and paid up in cash. The vendors take 75,000 shares at par, and the remainder have been sold at par on the London market.

The property for the present will be operated under the joint management of J. O. Briscoe and John C. Peters. The working force will be increased to 100 men and a concentrator will be erected at the mine at once, of 120 tons per day capacity, to work up the second class ore. An electric plant has already been purchased and will be put in place immediately.

Tunnel No. 4 will be pushed with compressed air drills, and everything that money and men can do to improve the mines and increase the output will be done.

From Mr. Briscoe the following facts and figures, which are from the company's books and are part of the history of the mine, are ascertained.

The Minah group was opened up by him in February, 1886, and up to January, 1889, there had been shipped 13,422,300 tons of ore, which netted at the smelters:

Quinces Silver 600,254.81, value..... \$ 81,041.68
Quinces gold 11,118.84, value..... 222,962.80
Pounds lead 3,547,655..... 187,964.09
Total.....\$1,171,968.57

During this time Mr. Briscoe has developed the Minah group with 4,400 linear feet of tunnels; 6,000 feet of drifts and 1,184 feet of shafts, and there is now in sight in the mines as reported by the company's experts over sixty thousand tons of ore that is estimated to be worth over \$50 per ton, gross value.

But Mr. Briscoe has not confined his operations to this group of mines, for during this time he has opened up and shipped from other mines owned by him, viz.: The Sirius, Frohner, Evening Star and Basin mines as follows:

Quinces Silver 24,198, value..... \$31,215.42
Quinces gold 310.34, value..... 22,210.75
Pounds lead 28,468, value..... 14,409.90
Total.....\$67,836.07

Such men as Mr. Briscoe are what has placed Montana in the proud position she holds in the mineral world and all advocates of legitimate mining enterprises will congratulate him on the success of his latest enterprise and will hope that he will continue to use his energies in developing mines and reaping deserved rewards.

Montana Mines Abroad.

Statehood and its effects on the mining industry in Montana are being felt in no small degree. When two years ago congress passed a bill which virtually shut all foreign capital out of Montana but little activity was manifested in her mining enterprises from foreign shores. While the ostensible purpose of the measure was to prevent the acquisition by English and foreign landlords of vast tracts of land in the territories, it was so formulated and construed as to apply to the mining industry. Since statehood dawned on our tri-continental domain what a change has been experienced! Within three short months millions of capital have been brought to Montana. The Carlisle company purchased the Phil Shenon group; the London & Financial Trust Syndicate acquired the Elkhorn properties. Another London syndicate has purchased the Minah group and now the Jay Hawk company, of England, is negotiating for the Pettigill group, in Beaverhead county. This company already has property adjoining the Pettigill group, which, while it has not yet developed into a bonanza, gives indications of yet developing into a paying property. The new acquisition is in the Vipond district and in the vicinity of the Lone Pine mines. The purchase price for the Pettigill mine is not stated, and as yet the sale is not entirely completed.

Strike in the Elkhorn.

Henry Bratnaber, general manager of the Elkhorn Mining company, came in from Elkhorn last evening and brings the good news that a strike of good ore was made yesterday on the 1120 foot level, which is three hundred feet lower than the lowest workings. The ore, Mr. Bratnaber says, runs 70 ounces to the ton. This strike is of great importance as it is the richest ore discovered in Montana at equal depth. Another find of much importance is the Elkhorn, Mr. Bratnaber states, is the discovery of two in cross cuts, which were believed to have been worked out under the former management. He reports everything working smooth at Elkhorn and the all grinding out its usual quota of silver bullion.

Dinner sets, handsomely decorated, containing 12 pieces, selling at \$14 for this week at the Bee Hive.

Tuxedo Suits.

Something new and nobby for misses and children. All colors, sizes 4, 6, 8, 10 and 12 years. Ask to see them at RALEIGH & CLARKE'S.

A Card of Thanks.

At their last regular meeting the Sons of Veterans unanimously instructed us to extend, through the city papers to all who assisted U. S. Grant Camp in the observance of Union Defenders' day. In obedience to said action, we wish hereby to thank the teachers and pupils of the public schools, the G. A. R., the W. R. C. and all who took part with us in the exercises of the day, especially Superintendent Young, Hon. E. D. Weed, Miss Mosher, Miss Bishop and Messrs. Oldham and Jackson—for their generous assistance in crowning our efforts with success.

Ed. R. SMITH, Captain.
Attorn: EDGAR G. WOODEN, First Sergeant.

Additional Postal Facilities.

R. H. Barclay, chief of the railway mail service, starts a railway postal car service between Minot, North Dakota, and Great Falls to-day. The line is to be known as the Minot and Butte railway postoffice, running in direct connection with the St. Paul and Minot railway postoffice. Helena has now two through railway postoffice routes to St. Paul, one taking out eastern mail in the morning, the other in the evening, both under charge of Mr. Barclay.

Next Sunday's Independent will be a big double number, and a large extra edition will be printed for outside circulation.

THREATENING RUIN.

The Board of Trade Meets to Consider an Important Matter.

Our Montana cattle men are awakening to the fact that a bill is pending in congress and liable to become a law, which, if it does, will cripple if not totally extinguish the cattle and sheep industry of the state. A Nevada man yesterday telegraphed to Mr. John T. Murphy, of this city, that he had received telegrams from Congressman Carter which stated that the Sweeney bill was liable to pass and urged him to get up a remonstrance.

This was introduced by Sweeney, of Iowa, and provides an annual tax of \$1 per head on all stock ranging on the public domain, and this includes cattle, horses and sheep. Mr. Carter also wired his fears to Miles City last Thursday, and a meeting of stockmen was held and a protest at once sent to Washington.

Yesterday the Helena Board of Trade met to take action on the important matter. Among those present were Col. C. A. Broadwater, John T. Murphy, D. A. G. Flowerree, E. W. Beach, C. K. Cole, A. J. Steele, Henry Klein, R. C. Wallace, Donald Bradford, Geo. E. Boos, H. M. Padden, and A. M. Holter who presided. It was determined in view of the possible passage of the bill to forward a protest and several members present spoke on the subject. President Holter said that in 1888 there were 632,000 cattle in Montana and 1,153,000 sheep. In 1889 there were 1,180,635 sheep, 548,332 cattle and about 150,000 horses, and if a \$1 tax was imposed on each of these every year, why the stockgrowers could not think of remaining in the business. Mr. Flowerree said the bill means nothing more nor less than a prohibition of the stock business. Even now the business does not pay and many would like to get out of it, he among the number. He said there is not as much good land used by one-third as there was in 1885, and cattle are not worth as much by 50 per cent, as they were then. The stockmen have been holding on, expecting an improvement in the market, but none has come and not one stock grower is increasing his female herd, and this dollar tax will only force men out of the business, and set all scrambling to see who can get out first. There has not been any profit in cattle growing since 1885.

Messrs. Klein, Padden and Murphy also spoke in the same strain.

The chair appointed Col. Broadwater, H. M. Padden, C. K. Cole, E. W. Beach, D. A. G. Flowerree and John T. Murphy a committee to draw up the remonstrance, and the secretary, Mr. Bradford, was instructed to urge all boards of trade in the state to take similar action. The committee sent their remonstrance to Mr. Carter last night by express.

After this business was disposed of a discussion followed as to the advisability of dissolving the Board of Trade, now that the Chamber of Commerce has been organized. The meeting adjourned after a lengthy discussion of various matters, without taking any action on the proposition of dissolving the Board.

A number of the trustees of the Chamber of Commerce then met but did not do anything of importance.

YOUNG MAN, GO WEST.

Don't Do Not Leave a Pretty Young Wife Behind as Did Mr. Somerville.

Wm. Somerville, the Apollo of colored society, has gone and left behind a charming young bride of not more than four months. Mr. Somerville was a regular well and at the recent masquerade ball was the "cock of the walk." He did the prompting and calling and the dulcet tones of his clarion voice as he called the different numbers could be heard many blocks away, and not a little did his volentastic outbursts attract a large audience to the scene. Mr. Somerville is a man of fine military bearing and at the ball stated was a soldier's uniform. His occupation was blacking boots at the tennorial parlors of Wm. Hartwig. Sunday evening he went to the "bosses" house and asked Mr. Hartwig if he would let him have \$5, as that was the amount he needed to liquidate a balance due on his household furniture. He got the money and early yesterday morning opened the barber shop. He did not remain long, however. About the time the Northern Pacific local was due to leave for the West, he was noticed about the platform and was on board when the train pulled out. During the day his young wife inquired for him at the shop but he was not to be found. She looked all over and visited the shop many times hoping to find her husband, but he was not to be found. The young woman said she did not know what to make of it; that he never intimated his intention to go away, and they lived happily together. She was informed during the day by an eye witness of her husband's departure, and she felt relieved upon learning that he did not leave with a handsome woman. Somerville will be remembered as the man who, with a buxom damsel of his own persuasion, danced into Lake Winemore a boat. The young wife felt very bad last night and her female friends are consoling her.

The Bee Hive has just received an immense lot of fancy China and glassware which they are selling at bed rock prices.

THE DEER LODGE ADDITION.

Why Every One Should Buy Lots in Montana's College City.

First—You buy your ground with the best title in the world and you will never have to go the expense of securing an attorney to defend its title.

Second—You are buying in the best locality in the town of Deer Lodge, ground that you would not exchange for lots in the original townsite if you could get two lots for one.

Third—You are getting it for less than half what you can buy anywhere else in the town.

Fourth—You are twice as near the business portion as you would be by buying in the old townsite.

Fifth—You are getting in below bed rock before the boom comes, and you can easily imagine where you will be in a few months from now. You will be the high roller taking wealth. That accounts for the grand rush that was made for lots in the Syndicate addition to Deer Lodge yesterday in Carl Kleinschmidt's office, room 8, Bailey block; 42 lots sold the first day at \$40 per lot. Now is your time, first come first served.

Spring goods for ladies and children's wear arriving daily at the Bee Hive.

Home from Eastern Markets.

W. B. Raleigh, of the firm of Raleigh & Clarke, returned yesterday from an extended eastern trip, where he has been for some time, selecting a large stock of late goods for the spring and summer trade. Mr. Raleigh was accompanied by Will Dougherty, his head salesman, whose knowledge of what Helena ladies will most admire and appreciate was put to the test. Both gentlemen return feeling assured that their importations will more than meet the demand.

The gallery of French works of art maintained in this city by Mr. August Park, proprietor of the California Wine House, has just received an addition in the painting "L'Amour," now on exhibition.

Home-made bread, pastry and confectionery at the Novelty 111 N. Park st.

Look out for next Sunday's Independent.

Up Town Now.

The city office of Ketchum, DeNeille & Co. is with J. S. M. Neill, on Edwards street, near of Merchants National bank. Orders left will receive prompt attention.

Kid Gloves.

100 dozen new stock kids, in all colors and lengths, from medium to best, made at RALEIGH & CLARKE'S.

Tea sets, decorated English ware, containing 50 pieces, this week only \$3.75, at the Bee Hive.

PUT DOWN YOUR NAME.

Helena People to Be Asked To-Day to Indorse the Union Pacific Funding Bill.

A Commendable Measure that Should Meet with Hearty Approval.

The Union Pacific Wants to Extend its System and Build Feeders—How They Will Do It.

To-day Messrs. J. S. Shropshire and Frank R. Miles, of Butte, will circulate a petition among Helena business men asking them to indorse the Pacific funding bill now pending in congress. Briefly stated this measure is to grant the Union Pacific further time in which to pay the debt they owe to the government, which is \$30,000,000. The funding bill gives them fifty years to pay this at the rate of \$1,000,000 per year. The mortgage which the government has upon the road will become due in six years. The money that the Union Pacific has already paid to the government is hoarded in the treasury and doing nobody any good, and has done the road a good deal of harm; it has prevented the company from extending its system and building feeders and enabling it to compete with other lines. Besides it will be an impossibility to liquidate the indebtedness in the time stated. The proposition which the Union Pacific railway makes to the government through the Dill-waite bill, gives the government the first mortgage on all the Union Pacific property, including the Oregon Short line and the Utah & Northern and will pay \$1,000,000 per annum with 3 per cent interest. This scheme is meeting with general endorsement through the West at every point where the great system operates. It will not only lessen the burden of the road, but will leave the road funds to extend its business and enter into competition with other lines. That it will meet with general favor in Helena there is no doubt. If the bill passes, Helena can safely count on seeing the Union Pacific build here in due time and reach out for some of the growing traffic of this growing community. In Butte, Anaconda and Deer Lodge petitions have been circulated and have received the signatures of all the leading men of those places, and the gentlemen who will visit Helena's citizens to-day will no doubt meet with similar encouragement. So far the only people who have protested against the passage of the bill are some grangers in eastern Nebraska, where they have all the railroads that they want. The people of the northwest are not in this condition, however, and want all the railroads that can get, and the more the merrier. The proposition is a most commendable one. Even a casual consideration of it will convince anyone that congress can do nothing better than to pass this bill. Otherwise a law, while it gives power to the government and this would be one of the worst things that could befall the country. By endorsing the petition and the bill Helena will be doing something that will benefit this city, should the bill become a law, while the government and the railroad will be in a better position towards each other. The fact that the Union Pacific for the past few years has been turning a large per cent. of its earnings over to the government, accounts for that railroad's inactivity in keeping pace with the other great railroads of the west. Everybody should sign the petition.

The largest line of linen towels, napkins and table cloths in the city at the Bee Hive.

Big reduction on lamps at the Bee Hive.

Dress Goods.

New novelties in dress goods are being received daily at RALEIGH & CLARKE'S.
